Win Internship/Fund and Start your own!

Based on your performances and review of mentors, top three performers from three different categories get selected for internship/fund to start something for your own!

Our statistics shows that, teenagers have no dream of their own. They yield to pressure of their parents and give up their entity. As a result they start to - Fall in Depression, Drinking, Smoking and Drugs, Cyber Space Addiction, Disliking Parents etc. Again, another statistics shows, young professionals whose were involved in ECAs during their teenage, are more productive than their colleagues whose were not involved in. 'reflective TEENS' is a nonprofit teen based creative platform to expose, incite and incubate their PASSION & HOBBY for developing their PERSONALITY. We designed our road-map in such a way, where either they can prepare themselves to become more productive for future jobs, or they can choose their hobby as a carrier!
